M E M O R A N D U M

TO: Acting Commissioner Wilson and
Assistant Commissioner Arbesman

FROM: Beatrice S. Tylutki

SUBJ: National Gypsum Property, Millington

This Administration has required National Gypsum Company to remedy the situation described in the enclosed article. The long delay involved in resolving this matter resulted from the need of the company to obtain a stream encroachment permit, and subsequent litigation between National Gypsum and the current landowners, Tifa, Ltd.

Necessary work has been initiated and is now nearing completion. We will, of course, make further inspections to insure the work has been done properly.

B.S.T.
